

Garden bag

The fairly produced garden bag made from upcycled rice sacks is suitable for damp grass, twigs, dry leaves or roots. It is robust and tear-resistant thanks to the reinforced cross seams. Garden waste can therefore be transported very easily. Outdoor toys or garden tools can also be optimally stowed in it and remain protected thanks to the moisture repellent material. The rice sacks are carefully cleaned before processing.

- Upcycling product
- Durable from rice sacks
- Suitable for indoors and outdoors
- Reusable and easy to fold
- Extremely rice-resistant (up to 50 kg)
- No removal of microplastics
- produced in a fair trade project by women in Sri Lanka (WFTO-certified)
- Each garden bag is unique
